Allowable Subject Matter

1. Claims 1-7 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art neither anticipates nor renders obvious a numerically controlled machine tool as claimed in independent claim 1, specifically wherein the combination of limitations includes each articulated arm comprising two half-arms hinged via a first connection hinge to enable the two half-arms to rotate about a first axis of rotation perpendicular to said vertical plane.

The closest prior art is as detailed in the previous office.

Applicant has amended the independent claim to incorporate allowable subject matter of dependent claim 2 as discussed in the previous office action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
